Dear Parents,

Doncaster Gardens Primary School subscribes to an online computer resource, Mathletics, that is used in conjunction with the program run in the classroom. Mathletics is run from Years 1 to 6. As part of our subscription, we are able to offer it as a resource that you can use at home with your child, at no cost. Your child has access to the Prep curriculum only and the opportunity to use ‘Live Mathletics’ to advance their mental recall of number facts. To use the program, you will need to have internet access. I hope you find this program beneficial for your children.

HOW TO USE:

1. Log on to www.mathletics.com.au
2. Click ‘Sign In’ in the top right corner of the page
3. Type in your child’s individual user name and password (as provided to you on the access card) or assist your child to do this.
4. Your child can then set up an avatar, which involves them selecting their hair and eye color.
5. Once completed, your child will be able to select from a variety of topics to undertake or they will be able to compete in the live Mathletics forum against other students answering mental Maths questions.

Please be advised that your child may not be able to complete all the tasks that are set for them at this early stage of the year. This is designed to be a fun activity to build confidence in the area of Mathematics.

If you have any difficulties logging on, don’t hesitate to drop by SLU4 and I will be pleased to help you.

Nick Rice
Mathematics Coordinator
